## **ACCREDITATION DEFINITIONS**

The following are accreditation program classifications. Accreditation references in this Directory are based on determinations made by the Department of Human Services, Division of Alcohol and Drug Abuse as a result of annual on-site accreditation reviews.

**Clinically-Managed Residential Detoxification Program:** a short-term residential program providing for the supervised withdrawal from alcohol or drugs for persons without known serious physical or immediate psychiatric complications;

**Day Treatment Program:** a nonresidential program providing clients with a minimum of 20 regularly scheduled treatment hours per week in a clearly defined, structured, intensive treatment program;

**Early Intervention Program:** a nonresidential program providing direct supportive client contact, indirect or collateral client contact, community information and coordination, and liaison services;

**Gambling Program:** various levels of services designed to meet the needs of individuals with gambling problems and their family members. Services can include assessment, individual and group therapy, structured outpatient treatment, day treatment and level III.7 medically monitored intensive inpatient treatment program for adults.

**Intensive Outpatient Treatment Program:** a nonresidential program providing clients a minimum of nine regularly scheduled treatment hours per week in a clearly defined, structured, intensive treatment program;

**Level III.1 Clinically-Managed Low-Intensity Residential Treatment Program:** a residential program that provides 24-hour, structured environment providing a minimum of five regularly scheduled treatment hours per week;

**Level III.7 Medically-Monitored Intensive Inpatient Treatment Program for Adults:** a residential treatment program providing a 24-hour, structured environment providing a minimum of 30 regularly scheduled treatment hours per week for adults; and 15 regularly scheduled treatment hours per week for adolescents;

**Outpatient Services Program:** a nonresidential program providing regularly scheduled counseling services of fewer than nine counseling hours per week to those persons harmfully affected by alcohol or drugs;

**Prevention Program:** a planned and recurring sequence of multiple, structured activities established to inform, educate, impart skills, deliver services, and/or provide appropriate referrals for other services, through the practice and application of recognized prevention strategies.

**Accreditation 1/1:**

Level III.7 Medically Monitored Intensive Inpatient Treatment Program for Adolescents

**Area Served:**

19 Tribes and 5 Urban Indian Program in North Dakota, South Dakota, Nebraska, Iowa

**Eligibility:**

Adolescents (12-17 years of age), enrolled members of a Federally recognized Tribe with a primary diagnosis of drug or other drug addiction/abuse.

**Fees:**

As a federally funded and operated facility, the YRTC utilizes the Center for Medical Services to determine the reimbursable DRG rate/fee. Indigent funding is available.

**Services:**

Residential alcohol and other drugs addiction or abuse treatment and therapy provided through individual or group therapy. On-site education services provided by a South Dakota Department of Education certified alternative education program.

**Description:**

The program provides the adolescents with a treatment and therapy plan that incorporates Lakota Indian culture and spiritualism into the delivery of individual and group therapy and experiential outings. In addition, the twelve steps of Alcoholics Anonymous (AA) and Narcotics Anonymous (NA) are introduced and practiced through; Step study sessions, Big Book sessions, Ala-teen, Al-Anon and AA meetings.

The “Truthought Corrective Thinking Process” is utilized and paralleled to the Lakota Indian Value system as a means to assist the adolescent with their decision making processes and practice more acceptable behavior for all environments of their lives.

Health promotion and disease prevention education; diabetes, obesity/dietary, smoking cessation, etc., are provided as part of the treatment curriculum. Basic life skills are included as part of treatment and alternative education curriculum.

Family Days: Adult family members (18 or older) are invited to participate in a minimum of three (3) days of films, lectures, discussions and activities to assist the family with communication and to assist the adolescent with relapse prevention.

Day Treatment, Early Intervention, Gambling, Intensive Outpatient Treatment, Outpatient Services, Prevention

**Area Served:**

Worthmore – Unlimited

Nadric – Unlimited

**Eligibility:**

Worthmore – 18 and above;

Nadric – all ages

**Fees:**

Fixed fees. Insurance coverage when available. Medicare benefit to those who meet criteria. Sliding fee scale when needed.

**Services/Description:**

Alcohol/drug and gambling evaluation/assessments, information and referral services, day treatment (with lodging available), adult and adolescent intensive outpatient treatment, family program, employee assistance program, medical detox, adolescent prevention/diversion program, DUI offender program, community prevention project which provides information and networking with individuals, groups and other agencies. Treatment programs are for alcohol, drugs and gambling.

**Description:** All levels of care are determined by the ASAM Patient Placement Criteria.

**Worthmore:** Level 2.5, residential day treatment is a level of care which includes a daily minimum of 6-8 hours of didactic programming, counseling, group therapy, family conjoint sessions, lectures, videos and peer support. Daily attendance is mandatory. The patient must not need daily medical supervision. Meals and lodging are included in this level of care. The length of stay is individualized but generally is four (4) weeks in length. While the patient is in treatment, families and loved ones are invited to attend the family program, which is an intensive 2-1/2 day program. There is no cost for the program if a member of the family is in treatment.

Bed space is generally between 15 – 18.

**Nadric:** Direct services for the chemically addicted: a) evaluation of each chemically addicted person and the family to determine total rehabilitation program, b) provide information on all aspects of chemical addiction, c) all types and methods of counseling such as outpatient treatment program, individual, group, family-group, d) referral to appropriate agencies, e) follow-up, f) prevention and education programs and also a community mobilization project which includes a community prevention networker to coordinate prevention activities.

**Accreditation 4/6:**

Early Intervention, Intensive Outpatient Services, Outpatient Services

**Area Served:**

Sioux Falls and surrounding communities, SW Minnesota, NW Iowa

**Eligibility:**

Individuals, couples, and families appropriate for outpatient services related to mental/behavioral health and/or chemical dependency concerns.

**Fees:**

Methods of payment: Insurance, Medicaid, State funding, sliding fee scale.

**Services/Description:**

Assessment/Evaluation (adult & adolescent):

Evaluation services that begin by gathering detailed information regarding an individual's chemical use and general mental health functioning. The evaluation progresses to identify any effects chemical use has had on specific life areas. Evaluations determine if and what criteria for chemical abuse or dependency and any mental health disorders have been met. Finally, evaluations provide a comprehensive recommendation for the most appropriate level of care.

Intensive Outpatient Chemical Dependency Treatment Services (adult & adolescent):

Designed to focus on core issues related to addiction, life areas affected, family functioning, spirituality and over-all mental health. This program provides a highly interactive environment allowing individuals to experience informative, energetic, and genuine interactions with others utilizing targeted discussions and activities. The Intensive Outpatient Services Program is provided in an open-ended group setting. Program members may participate in individual, couples and family sessions as needed.

Outpatient Chemical Dependency Treatment Services (adult & adolescent):

Designed to focus on core issues related to chemical dependency, relapse prevention, spirituality, mental health and overall long term change. This program provides a highly interactive environment allowing individuals to experience informative, energetic and genuine interactions with others utilizing targeted discussions and activities. Individual and group services are available.

Individual, Couples and Family Therapy:

Designed to focus on issues related to family functioning, anxiety and mood disorders, chemical dependency, stress management and spiritual development.

Clinically Managed Low Intensity Residential, Early Intervention, Gambling, Medically Monitored Intensive Inpatient for Adults, Outpatient Services

**Area Served:**

State of South Dakota

**Eligibility:**

Females, ages 18 and above who are pregnant and in need of chemical dependency treatment and females with dependent children (to age 8) in need of chemical dependency treatment.

**Fees:**

Title 19 Reimbursement, insurance and State funds

**Services:**

Treatment Needs Assessments, Level III.7 Inpatient Residential Programming, Level III.I Low Intensity Residential, Case Management, Gambling Assessments, Level I Outpatient Individual and Group Gambling Services

**Description:**

Assessment and residential treatment for pregnant and/or parenting adult females and their children.

Full Circle is a residential program located in Rapid City, SD for 18 and older pregnant and parenting females, and their dependent children, who are struggling with drinking and/or taking drugs and who lack the ability to abstain from drinking or taking drugs. This program provides coordinated substance abuse intervention and treatment, health care, and supportive services to pregnant and/or parenting women.

The goals of Full Circle are for participants to develop a recovery based lifestyle, make a successful transition into independent living arrangements, be quality parents to their children, and avoid long term dependency on the social services system. The program consists of 3 phases. Phase One is medically monitored inpatient chemical dependency treatment and lasts typically 6 weeks. In this phase, the clients learn how drug and alcohol use affects them and their children, new ways of coping with life, or relating to others and self, and they acquire the tools they need to aid them in living a recovery oriented lifestyle. Phase 2 is the Clinically Managed Low Intensity Residential Phase of the program and is designed to provide women with a safe, secure, and structured place to stay before and after the baby is born. Case managers help obtain housing and become involved in education, vocational programs, and parenting classes among other services. Residents are encouraged to utilize the group home styled facilities for 3 months post birth. In Phase 3, Full Circle offers case management services upon a client's discharge from Phase 2. Services included in this phase would be continued provision of support groups and counseling, as well as ongoing linking with vocational, childcare, educational, and support services in the community. Case Management Services are offered throughout Western South Dakota. Women can be referred to this facility by Law Enforcement, Social Services, Human Services, Tribal Entities, the private sector such as physicians and attorneys, and others including family members.

**Bed Count:** 19

**Gambling:**

Gambling Assessments and Outpatient individual and group services are being offered to those in need of gambling treatment. Outpatient services include: Counseling, financial planning, education regarding compulsive gambling and the progression of gambling, family education, and referrals to outside resources when appropriate.

Prevention

**Area Served:**

Rapid City and surrounding communities

**Eligibility:**

Services are available to all youth ages 5-15, pregnant females and their families. Referrals accepted.

**Fees:**

No charge for enrolled participants

**Services:**

One to one mentoring.

**Description:**

The program matches high-risk children ages 5-15 and teen and new mothers with positive adult role models for friendship, support and guidance. Prevention education is provided to all program volunteers, children, and teen/new mothers. Additional programming includes: training in personal safety, prevention of sexual abuse and substance abuse, violence prevention and positive alternatives to alcohol, other drugs and violence.

Overall services include the Big Brothers Big Sisters, Big Couples Program, the Mother Mentor Program, the Student Volunteer program and the School Based Mentoring program. All programs incorporate the above prevention components.

Big Brothers Big Sisters of The Black Hills is a non-profit organization that provides screened volunteers as mentors to boys and girls ages 5-15 and teen/new mothers. The primary focus of the agency is to provide one-to-one mentoring relationships between a trained volunteer and a child or teen/new mother in need of support. Big Brothers Big Sisters is committed to providing these children and teen/new mothers with opportunities to reach their fullest potential as they become participating community members.

Early Intervention, Intensive Outpatient Treatment, Level III.1 Clinically Managed Low Intensity Residential Treatment, Outpatient Services, Prevention

**Area Served:**

Greater Sioux Falls area, Southeastern South Dakota, Southwestern Minnesota, and Northwestern Iowa.

**Eligibility:**

Need for education, counseling, crisis intervention or treatment

**Fees:**

Sliding scale fee

**Description:**

The goal of Carroll Institute is to eliminate the problems associated with drug and alcohol abuse. We address the problem of the individual first, helping them to identify the tragic results of untreated addictions. Our counselors then stress the importance of learning how to make the right choices in overcoming addictive thinking. Treatment helps one to recognize, accept and deal with the problems that have resulted from abuse of drugs and alcohol.

Addictions always have a way of affecting so many more people, often impacting unintended victims in the family. The Carroll Institute works with families as a system offering each member the chance to participate in group and individual sessions to aid in the recovery process.

We provide all our clients with comprehensive and cost effective services. In so doing, the Carroll Institute is committed to providing individual and our community, as a whole, leadership and expertise in the prevention and treatment of alcohol and drug abuse and addiction. Below is an outline of the services we provide.

## **Services:**

### **Prevention Programming:**

**Project Awareness:** Prevention and Education. This program reaches over 10,000 young people and families every year in the greater Sioux Falls area. The program was developed 30 years ago by the Sioux Falls School District, Courts and the local PTA after a young girl died from the effects of drug abuse. What started as a drop-in center for kids has now developed to a program with counselors in area schools within a 60 mile radius of Sioux Falls who provide education, support training, crisis intervention with families and support groups for students having difficult adjustments. Work with families is accomplished through two innovative programs: “Level I” (first time offender’s program) and “Intensive Prevention Program” (IPP). We also offer an 18-20 year old Young Adult Diversion Program. By design, family involvement is mandated by referrals from courts and strongly recommended by Carroll Institute.

**Early Intervention:** The procedures by which a counselor identifies and evaluates an individual’s strengths, weaknesses, problems and needs for the development of a treatment plan.

### **Outpatient and Intensive Outpatient Services:**

**Carroll Outpatient, Intensive Outpatient & Jail Treatment:** Treatment services for Adults: Approximately 1500 people in southeastern South Dakota receive evaluations, urinalysis, individual counseling, family therapy and group therapy, multiple-family group, Parent Support Group and Aftercare each year.

Our Adult Intensive Outpatient Treatment Program is a comprehensive program for adults. It includes corrective thinking, feelings investigation, self-esteem, anger/grief issues, goal setting, relationship issues, support systems, relapse prevention, individual and family counseling and a strong 12 Step foundation.

Our Jail Treatment Program is also an intensive outpatient treatment program for incarcerated adults. This program provides Minnehaha County Jail Inmates with alcohol and drug issues the opportunity to seek treatment and begin working towards skills necessary to live a clean and sober lifestyle when they are released.

Our Aftercare Program is a one hour per week reconnection for clients beginning recovery from drugs and alcohol. The group discussion topics are a more in-depth look at issues that can make or break recovery. Topics include relapse prevention, trust building, values, feelings, anger management, relationships, etc...

### **Methamphetamine Treatment Program:**

Our Methamphetamine Treatment Program began on September 18, 2006. This program is a 12 to 18 month intensive outpatient treatment program utilizing the Matrix Model. Clients must have a minimum of two weeks detoxification time prior to entering the program. They will attend 16 weeks of intensive outpatient services, (some will be residing in a half-way house while completing this phase), followed by continued residential treatment if needed and 6 to 9 months of aftercare services. Individual and family sessions are included. Family education is also provided in a group setting. Contingency management is utilized for attendance and negative urinalysis testing. Urinalysis testing is completed frequently.

## **Prevention:**

**South Dakota Public Safety DUI Program:** A prevention and education program using standardized DUI curriculum focusing on changing risky behavior of drinking and driving. The approach is non punitive requiring participants to develop a change plan – “...based on the belief that people have the power to change behavior if they have the motivation and tools to do so.” The target population for this curriculum is defined as first-time DUI Offenders age 18 years old and above. The program is 12 hours in length meeting on two Saturdays each month.

**Diversion Program:** A prevention and education program 8 hours in length offered both day and evening. The program is geared for 18-20 year olds using a Prime for Life curriculum utilizing videos, lectures and discussions.

**Intensive Prevention Program:** A prevention and education program 16 hours in length offered on Monday and Tuesday evenings. The program is geared for 16-20 year olds using a Prime for Life curriculum utilizing videos, lectures and discussions.

## **Clinically Managed Low Intensity Residential Programs:**

**Arch Halfway House:** A rehabilitative residence for men recovering from chemical dependency: The “Arch Halfway House” has served over 3000 people since it opened in 1973. Concerned families initiated the program and gained community support to purchase the former Lutheran Church parsonage, which was converted to provide a halfway house program for those returning to the community from inpatient treatment or prison. The Arch Halfway House phone number is 605-332-6730 and has a capacity of 35.

**Changes and Choices:** Changes and Choices is a low-intensity residential treatment program for women. It was established in January 2005 with the purpose of affording chemically dependent women a safe, secure, drug-free facility to heal from harmful addictions in a positive and caring environment. We are able to house up to 24 women at a time and provide all of the essentials needed for a healthy and successful stay. Some program elements of the program include but are not limited to secure, drug-free residence, daily nutrition, 24 hour staff, individual, group and family therapy, employment assistance, recreational therapy, working to develop a support system, life skills, relapse prevention, spirituality, anger management and corrective thinking. Changes and Choices phone number is 605-332-9257.

Information and administrative support for the certification and advocacy of prevention and alcohol and drug professionals.

The Certification Board for Alcohol and Drug Professionals is a State Office, officially recognized in the State as the credentialing authority, for standards, criteria and coordination of all application, testing and re-certification for Alcohol and Drug Professionals and Prevention Specialists.

The CBADP is a member of the International Certification and Reciprocity Consortium (IC&RC), as such adheres to international standards for professional credentialing and reciprocity.

The professional credentialing process provides for consumer protection and assures that programs and professionals meet official standards and requirements to deliver quality services for reimbursement. It also requires that professionals maintain a certain level of competency and professional knowledge with ongoing continuing educational requirements. The Board receives and addresses ethics complaints raised by the citizens of South Dakota and others who receive services in the State.

**Accreditation 10/1:**

Specialized Methamphetamine/Opiate Day Treatment Program, Clinically Managed Low-Intensity Residential Treatment, Clinically Managed Residential Detoxification Services, Intensive Outpatient Treatment, Outpatient Services

**Area Served:**

West River area primarily, others accepted on space available basis

**Eligibility:**

Adult males – 18 years and over

**Fees:**

Sliding Fee Scale

**Description:**

Specialized Long-Term Day Treatment Services, Transitional Care and Custodial Care Services.

**Methamphetamine/Opiate Treatment:** The purpose of the Methamphetamine/Opiate Treatment Program is to provide treatment and rehabilitation services to the target population of persons over the age of 18 with a primary diagnosis of Amphetamine or Opiate Dependence. The program consists of 4 phases. Phase I services are provided at the 725 North LaCrosse location. All other phase treatment is provided at the Friendship House.

**Phase One-Stabilization/Detoxification:** Initial and ongoing assessment in a Medically Monitored Social Detoxification setting. The length of this phase is based on individual need under the direction of medical personnel. Physician, mental health staff, and chemical dependency counselors will comprise the clinical care team during Phase I. If a client is admitted and no longer experiences withdrawal symptoms, he will be moved into Phase II to begin Day Treatment. Random breathalyzer and drug screening tests are conducted during all phases.

**Phase Two-Intensive Treatment:** This Methamphetamine/Opiate Specific Day Treatment Program consists of 20-hours of therapy per week for 8 weeks, located in a residential setting. This phase includes individual, group and family therapy. The Matrix Treatment Model, an evidenced-based intensive outpatient treatment program for alcohol and drugs proven effective in the treatment of methamphetamine addiction, is used. TruThought's Corrective Thinking Curriculum, also evidence based, is used to assist clients in responsible decision-making. Twelve-Step sponsorship is highly encouraged in this phase of treatment. Case Management, EMT/tech staff, and Chemical Dependency Counselors will comprise the clinical care team during Phase II. Mental health services are available, if needed, at Behavior Management System (BMS) or Sioux San Mental Health in Rapid City.

**Phase Three-Structured Living:** After successful completion of Phase II, each individual will be admitted to an Intensive Outpatient Treatment program and receive a minimum of 15-hours of therapy per week for 8 weeks, while living in a residential setting. This phase includes individual, group, and family therapy. Case Management, EMT/tech staff, and chemical dependency counselors will comprise the clinical care team during Phase III. The Matrix Model of Treatment and TruThought Curriculum continue to be utilized in the therapy. Continued work on primary chemical dependency issues, attendance at appropriate social support networks and/or 12-step programs will continue in this phase.

**Phase Four-Community Placement:** Each client will reside in the halfway house for a Low-Intensity Residential Treatment Program for 90 days. They will receive a minimum of five hours of therapy per week. In this phase, they will be transitioned from the residential setting to their own residence. Upon discharge from this phase, they will attend 6 months of aftercare.

#### **Half-way House Residential Treatment:**

**Level III.I Low-Intensity Residential Treatment:** The primary goal for this level of residential care is to provide chemically dependent adult males a safe, sober, supportive atmosphere during transition into the community. This level of care requires 5 hours of group per week and average length of stay is 90 days. Program includes meals, shelter, individual/group counseling, family education, employment assistance, referrals for non-provided services, recreational activities, and transportation means. All clients will be required to submit to random alcohol/drug testing throughout the treatment continuum.

**Groups Offered:** Anger Management, Continued Care, Corrective Thinking, Family Education, Life Skills, Peer Group, Community Living Group, Relapse Prevention, Grief Group, Early Recovery, and Specialized Topic Needs. Additional Groups provided include AA, NA and VOA- Health Education and Prevention Class.

Friendship House opened November 1, 1969, as a residential extended care facility for chemically addicted men and women trying to establish or re-establish themselves in mainstream living. We are an accredited facility.

**Accreditation 10/1:**

Clinically Managed Residential Detoxification Services, Clinically Managed Residential Treatment, Day Treatment, Intensive Methamphetamine Treatment for Adult Women, Early Intervention, Intensive Outpatient Treatment, Outpatient Services, Prevention

**Area Served:**

West River area primarily, others accepted on space available basis

**Eligibility:**

Adults – 18 years and over

**Fees:**

Sliding Fee Scale

**Description:**

Social detoxification, custodial care, counseling, supportive services, continued care, residential and non-residential intensive outpatient treatment, family program, crisis interventions, treatment needs assessments, drug and alcohol evaluations, counseling and support services, prevention, South Dakota Seven Community Mobilization Services, DUI Offender Program, TruThought Corrective Thinking Curriculum, Anger Management, Intensive Methamphetamine Treatment Services for Adult Women transitioning from prison to community.

**Detoxification:** The Social Setting Detoxification Program provides short-term residential care for individuals either intoxicated or withdrawing from drugs and alcohol.

**Level III.1 Low-Intensity Residential Treatment:** The primary goal for this level of residential care is to provide chemically dependent clients a safe, sober, supportive atmosphere during transition into the community following successful completion of treatment. This level of care requires 5 hours of group per week and average length of stay is 30 to 90 days. The Homeless Program consists of 6 beds for those persons in need of pre/post treatment services. Those accepted into the program meet the Federal definition of homeless and can stay in the program for up to 6 months. Programs includes meals, shelter, individual/group counseling, family education, employment assistance, referrals for non-provided services, recreational activities, and transportation means. All clients will be required to submit to random alcohol/drug testing throughout the treatment continuum.

**Continued Care:** We hold 7 Continued Care groups weekly. Successful completion of a treatment program is required prior to acceptance into the group.

**Core:** Provide counseling, support services, and/or initial assessments for chemically dependent persons, or anyone adversely affected by the use of alcohol and/or drugs. Community information and referrals of services are provided.

**Intensive Outpatient Treatment:** Program for both men and women: This program is an open-ended program and it has a 12 hour family program attached to it. The program runs for 4 weeks and is a total of 50 hours.

**Slip/Slot:** Residential program where the client lives at the center and has the option to work during the day and attend outpatient treatment in the evenings.

### **Intensive Methamphetamine Treatment Program for Women:**

**Phase III (Structured Living)** - Clinically Managed Low Intensity Residential – Meth Women consists of 90 days of Low Intensity Residential Treatment (Level III.1) at the facility. For the first month, this level of care will require 5 hours of specific Chemical Dependency Services per week, 2 hours of Corrective Thinking, 2 hours of Recovery Support (AA/NA), 7 hours of Individualized Therapy and Release Planning. Individualized Therapy may include; parenting, life skills, domestic violence, mental health counseling, and case management. This therapy may be provided in a group setting or on an individual basis. For the remaining two months, the client will be placed in regular III.1 programming which requires 5 hours of Chemical Dependency Services per week. Random drug testing is completed.

**Phase IV (Community Placement)** – Local Group and Individual Counseling for the Intensive Methamphetamine Treatment Program. Phase four consists of 180 days, divided into two 90 day sub-phases. At this point in the program, the clients will be residing in their own residence. For the first 90 days the client will be required to attend 2 hours of Aftercare (Level 1) per week, 1 hour of Recovery Support per week, and 1 individual counseling session per month. For the second 90 days the client will be required to attend 1 hour of Aftercare per week, 1 hour of Recovery Support per week, and 1 individual counseling session per month, if needed. Clients will also be drug tested on a random basis by their assigned Parole Agents. The client is responsible for all payments for the second 90 days.

**Community Prevention Networker:** This is the South Dakota Seven Community Mobilization Services program. This program organizes and is involved in community alcohol, drug and violence prevention projects, events, and programming. The CPN's raise awareness and mobilize the community to address above issues.

**DUI Program (12-Hour):** A 12-hour Public Safety program for first time DUI offenders can be taken on the first and second Saturdays or the second and third Wednesdays of each month. Pre-registration is required. .

**Accreditation 9/17:**

Intensive Outpatient Treatment, Medically Monitored Intensive Inpatient Treatment, Outpatient Services

**Area Served:**

Open

**Eligibility:**

Clients must be eighteen years of age or older, (adolescents between the ages of 11-17) meet DSM-IV diagnostic criteria for substance abuse/dependence. Service to American Indians is a high priority. Clients should be alcohol/drug free for 72 hours prior to admission and not in need of detoxification services.

**Fees:**

Varies

**Description:**

Treatment needs assessment and evaluations, adult inpatient treatment, adult outpatient treatment, adolescent outpatient treatment, continuing care for adults and adolescents and adolescent diversion program (PRI).

**Pretreatment Evaluations:** Screening, assessment, intervention, prevention and treatment placement by qualified/certified CD Counselors are available by appointment.

**Adult Inpatient Program:** Therapeutic services for chemically dependent individuals who meet ASAM criteria for Level III.7 admission. The program incorporates traditional American Indian teachings with 12-step concepts. The treatment philosophy is based on Red Road, Medicine Wheel and AA principles. The inpatient program is licensed as a twelve-bed unit. The usual length of stay is 21-30 days. Thirty hours of educational and group therapy are provided weekly in addition to 12-step study and attendance groups. Clients are provided the opportunity to participate in an Inipi Ceremony and/or attend church services. Planned recreational and physical activities are also part of the weekly schedule. Two-day family program.

**Adult Outpatient Program:** Outpatient treatment services (Level II.1) are provided for individuals who meet the ASAM criteria for Level II admission. The objective of the program is to provide treatment for individuals who require therapeutic and supportive counseling and referral services while living independently, who may have completed inpatient treatment previously but relapsed, or for whom residential treatment is not otherwise possible. The program meets three times per week in three hour long sessions for six weeks. A total of ten hours of weekly education classes, group therapy and individual counseling are included.

**Adolescent Outpatient Program:** (Level II.1 Title 19 approval) Services to adolescents who require outpatient treatment are provided. Clients should meet the ASAM placement criteria for Level II admission. Clients who require inpatient treatment services are referred to an appropriate facility. The outpatient program meets three times per week for six weeks. Family involvement is required as part of the treatment process. The adolescent program also provides continuing care for individuals who have recently completed treatment.

**Detoxification Service:** Social detoxification is provided through the Serenity Hills Treatment Center in Watertown, SD which is the designated alcohol and drug core services agency for residents of Roberts County and Northeast SD. A Dakota Pride Center staff member will provide transportation for detoxification services and a staff counselor will provide motivational counseling for clients who are undergoing detoxification to seek treatment through Dakota pride Treatment Center.

The Human Service Agency provides a comprehensive range of adolescent and adult drug, alcohol and gambling services. These include needs assessments, individual counseling, group and family counseling and intensive outpatient chemical dependency and/or gambling treatment. Adolescent services include intensive outpatient chemical dependency treatment, youth diversion groups, aftercare support groups, and adolescent high-risk groups.

Serenity Hills provides social setting detoxification, drug and alcohol long-term residential treatment, and dual-diagnosis long-term residential treatment (halfway house). The dual-diagnosis program provides psychotropic medication management, psychological evaluations, psychosocial skills training, individual mental health counseling, and assistance with vocational rehabilitation, relations, exercise and recreational therapy.

Addiction Services and Serenity Hills are departments within the Behavioral Health Division of the Human Service Agency in Watertown which is a core service agency and a comprehensive community mental health center that provides adjustment training services to the developmentally disabled, mental health services, prevention services and addiction services. These services adopt a holistic and comprehensive treatment model that views chemical dependency, co-existing mental illness, and compulsive gambling as multifaceted illnesses that require a high level of individualization, utilization of multidisciplinary team approach, mobilization of community resources, and heavy involvement in social support systems such as Alcoholics Anonymous.

Level III.7 Medically Monitored Intensive Inpatient Treatment for Adolescents

**Area Served:**

State of South Dakota

**Eligibility:**

Serves adolescents (13-17 years old) who are residents of the state of South Dakota. Applicants must be evaluated by a certified chemical dependency counselor and meet DSM IV diagnostic criteria for substance dependence. Pre-admission arrangements are required and can be made through the completion of an indigent assessment packet at a Core Service Agency. All admissions must be authorized by the Division of Alcohol and Drug Abuse. The treatment length of stay is dependent upon personal needs of the individual. Clients must be detoxed or drug-free 72 hours prior to admission.

**Fees:**

Voluntary admissions are required to pay the \$400.00 fee (effective 01/07) upon admission. Additional charges will be assessed according to ability to pay. Medicaid will also pay for patients who qualify.

**Services:**

Inpatient CD Treatment Program

**Description:**

Adolescent Chemical Dependency Program is a 20 bed co-ed program, which provides chemical dependency treatment to adolescents, ages 13 through 17. The average stay at the Adolescent Chemical Dependency Treatment Program is 60-120 days. The program is based on the holistic approach of treatment utilizing the 12 Steps of AA/NA.

Education services are provided to adolescents. These services are designed to meet individual needs and keep clients current with the instruction being provided in their community.

**Accreditation 6/21:**

Early Intervention, Gambling, Intensive Outpatient Treatment, Level III.7 Medically Monitored  
Intensive Inpatient Treatment for Adults and Adolescents, Outpatient Services

**Area Served:**

Open

**Eligibility:**

Chemical dependency or gambling problems, dual diagnosis.

**Fees:**

Fixed - Insurance coverage when available, and individual financial arrangements made when necessary, state funding, Rule 25, and IHS.

**Description:**

Pre-treatment evaluation, detox, adults and male and female adolescent residential programs, aftercare, family program, pre-treatment counseling, intervention services, individual counseling by appointment, intensive outpatient treatment, gambling treatment and dual diagnosis care.

Pre-Treatment: Free screening for adolescents, interventions, fee for adult assessment negotiable.

Residential Treatment Program: Adults and male/female adolescents (separate programs). A residential facility operating twenty-four hours a day, seven days a week, offering therapeutic programs for chemically dependent or substance abusing persons, their families, and co-dependents. Adolescents have a school program with a full-time teacher, psychiatrist and full time clinical psychologist on staff.

Aftercare: Continued interaction with the client designed to support and to increase the gains made in the treatment process. There are aftercare groups held at the Sioux Falls Outreach Center on Wednesday afternoon and also Thursday night. Donations requested if able.

Family Program: There is an intensive 2-day family program, 9 am - 5 pm (Monday and Tuesday). There is no cost for the program if a member of the family is in residence. While there is no charge for the family program, there is a charge for meals. Family sessions are also held every Sunday from 1 am - 2 pm. Parent support group is Wednesday evenings at the Outreach Center.

Intensive Outpatient: Eight week, structured, evening and daytime outpatient program. Family included.

Gambling Treatment: Free assessment and six-week outpatient group or intensive inpatient programs.

All programs accredited by the Joint Commission on Accreditation of Hospitals. Member of the National Association of Addiction Treatment Programs

Early Intervention, Intensive Outpatient Treatment, Outpatient Services, Prevention

**Area Served:**

Tripp, Todd, Mellette, Gregory, and Jackson Counties

**Eligibility:**

Desire for sobriety

**Fees:**

Sliding fee scale

**Description:**

Outpatient, referral, individual, aftercare, DUI classes, assessments, common sense parenting classes, thinking error classes, adolescent diversion program and anger management.

The services provided are for adults and adolescents. Each individual will be evaluated by a certified chemical dependency counselor to assess the level of treatment required to address the individual's problems.

The agency provides evaluations, diagnosis, treatment planning, outpatient treatment, individual and group counseling. We also provide aftercare and thinking errors classes.

For those individuals who meet the DSM IV criteria and the ASAM level of care we provide a 60 hour intensive outpatient treatment program for both adolescents and adults. This group is facilitated by a state Certified Chemical Dependency Counselors. This includes at least 60 hours of treatment in 8 weeks followed by 24 weeks of aftercare.

We also provide the PRI diversion program for all counties served by Main Gate Counseling Services as well as providing DUI classes.

**Description:**

NAAP is a grass root organization for persons with disabilities, their families, youth and advocates. NAAP became incorporated in 1992 and serves all nine tribal nations in South Dakota. We are one of only two Native American Independent Living Centers for persons with disabilities in the nation.

NAAP is an accredited prevention services provider. Services are focused in communities, schools and tribal districts that are isolated both geographically and in access to services. NAAP provides community training, education and prevention activities including culturally specific alternatives for youth, technical assistive with policy change and community mobilization are included in these services. The program serves all ages in order to eliminate violence, alcohol and other drug abuse. NAAP also provides specific educational curriculum to school districts such as:

- Prime for Life – Prevention Research Institute Risk Reduction Program: provides alcohol and drug prevention education to individuals under 21 years of age. Education groups are presented in an 8-hour and 24-hour block with a parent/family component included.

- Life Skills Management for junior high and high school students that includes anger management, solving conflict, self control, dealing with peer pressure and problem solving.
- Parenting and Discipline Model Education for high school and adults that offers strategies in setting limits and supporting their children in positive ways.
- Tasunkawakan Woksape (Horse Wisdom) equine assisted learning and life skills program.
- Woitanacan Skanbpi (engaging in Leadership) seasonal camps for native youth. The focus is learning cultural skills to live an alcohol, drug and commend tobacco free lifestyle.
- Culturally specific after school programming for Lakota youth ages 12-17 years of age and all youth interested in in-depth learning of the Lakota culture, values and perspectives on alcohol, drug and violence prevention. This program includes hands on learning and activities.

The mission of the Native American Advocacy Program, which strives to maintain a healthy organization, is to assist Native Americans with disabilities and Native American youth by: promoting a healthy lifestyle, providing prevention, education, training, advocacy, support, independent living skills and referrals.

**Accreditation 8/26:**

Prevention

**Area Served:**

Northeastern SD; Fifth Judicial Court service area

**Eligibility:**

NSU students and Fifth Judicial Court referrals. Special events and alternative activities are open to the community.

**Fees:**

Campus referrals for Insight program – set fees, community/court referrals – set fees. Other programs – no cost to NSU students.

**Services:**

Prevention (speaking engagements, media promotion, classroom presentations, multi-agency coordination and collaboration/coalition activities: community and volunteer training/coalition training, systemic planning, various peer helping programs for general student population and athletes, chemical free events, formal/informal alcohol, tobacco, other drug and violence (ATODV) policy development and enforcement for students, including athletes; problem identification and referral through a two level education and discipline system (12-hour curriculum PRI class and one-on-one brief, motivational counseling and stages of change); AOD assessments for students; early intervention; direct and indirect client support; support groups for students in recovery or with family members who are chemically dependent; referral to AA and NA.

**Description:**

NSU Counseling Center is proactive in addressing alcohol, tobacco, other drug and violence (ATODV) issues and problems. The ultimate aim is to create a safe campus and an environment that nurtures student's academic and social development, thus enhancing each student's capacity for learning. Staff work collaboratively with various NSU departments including Residence

Life, NSU's Athletic Department and the Fifth Judicial Court to create a student assistance program for responding to individuals experiencing chemical use problems through strong policy development and enforcement of campus policies and local, state and federal laws. This centralized progressive education/discipline system utilizes PRI's Prime for Life 12-hour curriculum on the first violation and more intensive one-on-one brief, motivational counseling for subsequent violations utilizing the research-based program for college students – Brief Alcohol Screening and Intervention for College Students (BASICS). Through a 10-day training, residence hall staff are provided the knowledge and skills to enforce the ATODV policies with the understanding that these measures contribute to a safe environment which enhances NSU's ability to accomplish its educational mission. Information regarding ATODV policies is disseminated to students, staff, parents, student organization advisors, and athletes on an annual basis. The NSU Social Crew helps welcome and acquaint freshmen to Northern State. Social Mentors help freshmen integrate into campus life by providing on and off campus activities and offering social support without the use of alcohol or other drugs. Gatekeeper trainings each semester increase the knowledge base and skills of groups of individuals who have contact with large numbers of students, i.e. residence life staff, peer helpers, mentors, and athletes through the Student Athlete Advisory Council (SAAC). Speaking engagements, classroom presentations and media campaigns are conducted to increase knowledge about high-risk behaviors, protective factors, and/or health enhancing behaviors. Social, recreational and public service options are provided for students that do not include alcohol, tobacco and other drugs. With an eye toward environmental prevention, staff worked collaboratively with community organizations to change the underlying economic, legal and sociocultural processes of community systems that contribute to high-risk chemical use and resulting violence. Chemical dependency counselors/trainees also provide ongoing individual and group counseling for students who are harmfully involved with chemicals as well as those affected by someone else's use or in recovery. In addition, AOD assessments are provided to students or as mandated by the courts.

**Accreditation 3/31:**

Intensive Inpatient Treatment, Outpatient Services for Adolescents (12-17 years of age) and Adults (18 and over).

**Area Served:** Boundaries and surrounding area of Pine Ridge Indian Reservation.

**Eligibility:** Native Americans/American Indians within boundaries and surrounding area of Pine Ridge Indian Reservation. Services are provided for both youth (12 to 17 years) and adults (18 and over).

**Fees:**

**Services:**

Outpatient counseling, assessments, referral, continued care, residential treatment, and DUI classes. The Program meets all requirements for Indian Health Service standards of care and is recognized by the SD State Division of Alcohol/Drugs to provide Intensive Inpatient and Outpatient services. Clinical staff are nationally certified chemical dependency counselors/trainees.

**Early Intervention:** A nonresidential program providing direct supportive client contact, indirect or collateral client contact, community information and coordination and liaison services. This includes walk-ins, telephone contacts, family referrals and critical care contacts.

**DUI Classes:** 8 hours of education.

**Out-Patient For Youth/Adults:** Who meet the criteria for this level of care or who are awaiting inpatient treatment will receive the following services:

- Treatment Needs Assessment
- Treatment Planning with systematic treatment plan review
- Individual Counseling up to twelve sessions
- Group Counseling
- Family Services
- Client Education

**Inpatient Program Residential Services:** Anpetu Luta Otipi provides residential services with each cycle averaging a 30 day stay.

**Continued Care/Aftercare:** The following activities are provided for up to 24 months following completion of residential or outpatient treatment:

- Relapse prevention education
- Aftercare planning
- Monthly Individual Aftercare plan review
- Healing ceremonies
- Weekly Aftercare support groups
- Support system coordination and sponsor recruitment

## **Description:**

**Philosophy:** Our peoples generational trauma manifests itself in addiction. Addiction, therefore, reflects our loss and grief. Healing from addiction must include our cultural norms and healing practices.

**Belief:** We believe that the Lakota Oyate (People) have endured hundreds of years of grief, pain, and loss. Our Oyate have learned to cope with this loss through the use of alcohol and other drugs. We, as Lakota service providers, believe that we can help our people to heal using our life experiences and our culture to overcome alcohol and drug addiction.

**Hope:** Our hope for the Lakota Oyate is to live a life free of alcohol and drug addiction – this hope must be built upon a foundation of our Lakota values, a natural relationship with the earth and a sense of balance within the self. These teachings are all a part of the Anpetu Luta Otipi effort – which then impacts the family, the community, and the next generation.

**Values:** The Lakota values are strongly emphasized in the program. The traditional Lakota values of generosity, wisdom, courage, respect and bravery guide all aspects of the program. These values provide the foundation for a healthy, alcohol/drug free lifestyle.

**The 7 Directions Toward Healing:** Specifically designed for the Lakota Oyate. A culturally based curriculum which utilizes the Lakota values to assist the Oyate in realizing how their use of chemicals negatively affects all parts of themselves and their family. A guide for Living in a Red Day – a life free of alcohol and drug addiction.

**The Oyate will Leave the Program With:** Information and knowledge on how alcohol and drugs affect them physically, emotionally, mentally and spiritually. A sense of self worth. A foundation

of self respect. A willingness to make the effort to “Live in a Red Day” without alcohol and other drugs.

**Accreditation 8/10:**

Level III.7 Medically Monitored Intensive Inpatient Treatment for Adolescents

**Area Served:**

State of South Dakota and other geographic regions

**Eligibility:**

Applicants must be between the ages of 12 and 18 years of age and meet DSM IV diagnostic criteria for substance abuse. Applicants must be evaluated by a certified chemical dependency counselor prior to admission. If this is not possible, the admission shall be considered tentative pending further evaluation. It is also preferred that an application packet be submitted prior to client admission (emergency placement arrangements can be made by contacting the Chemical Dependency Services Coordinator). Payment arrangements must be established prior to admission.

**Fees:**

Inpatient funding is available through the following: South Dakota Medicaid, Minnesota Rule 25 Consolidated Funds, Indian Health Services, Tribal Funding, Insurance, Federal Bureau of Prisons, Private pay (funding arrangements must be secured prior to admission).

**Services:**

Intensive inpatient treatment, intensive short-term relapse program, individual counseling, family and group counseling.

**Description:**

The Our Home Rediscovery Program philosophy is based on the belief that chemical dependency is a chronic and progressive illness and that the illness affects the individual in a holistic sense. The primary goal of treatment is for the individual to achieve sustained abstinence. The program is located in a rural setting three miles east of Huron, South Dakota. More specifically the program includes:

Inpatient Treatment: Provides 45-60 days of intensive treatment services for adolescents focusing on problems associated with chemical addiction. Services include individual, group and family counseling, step groups, psychological services, nursing care, family program, school program, and 24 hour staff coverage.

Short-term Relapse program: Provides 7-18 day program for adjudicated adolescents involved in the Department of Corrections. This program is designed for adolescents with a diagnosis of alcohol and drug dependence, and who have successfully completed drug and alcohol treatment at least once. The individual must have relapsed while living in the community. The purpose of the program is to assist adolescents in re-establishing their recovery program and in making vital community connections to support recovery. The treatment process places a focus on identifying primary relapse “triggers”, relapse prevention and developing a continued care plan. An emphasis is placed on family involvement as well as involvement from the Department of Corrections and other community support providers.

The programs also utilizes outside resources; specifically, AA and NA as well as other community resources to enhance the treatment process.

**Accreditation 5/1:**

Early Intervention, Intensive Outpatient Treatment, Outpatient Services

**Area Served:**

State of South Dakota

**Eligibility:**

Clients must be an inmate of SDWP

**Fees:**

No fees

**Description:**

Treatment Needs Assessments, Intensive Outpatient Services to include primary, Native American, Methamphetamine specific, gambling treatment, and continuing care referral. This is an outpatient treatment program for chemical dependency and pathological gambling. Individual and group counseling is utilized. Inmates are referred for continuing care in the community upon parole or release.

A Modified Therapeutic Community for Methamphetamine addicted female inmates is also available. The program is designed for a capacity of 24 inmates for 15 months of programming; including 3 months in the main Prison, 3 months in the Therapeutic Community, 3 months in a Half Way House, and 6 months on Aftercare while living in their own residence. The Intensive Treatment portion consists of 90 days of Intense Chemical Dependency Treatment, focusing on Methamphetamine addiction. The program is 6 days per week with approximately 260 hours of specific Chemical Dependency Treatment, as well as 195 hours of additional therapy, to include Mental Health Counseling, Education, Life Skills, Corrective Thinking, and group processing for a total of 455 hours of therapy. The program is based on principles of the nationally recognized;

research based Matrix Model, a highly structured, intensive program which includes the following treatments for stimulant use disorders that have empirical support; Cognitive Behavior Therapy, Contingency Management, which involves positive rewards for treatment progress; 12 step programs and Community Reinforcement. This approach is evidenced based and monitored by assessment tools to prove efficacy. Assessment tools are administered at the beginning of each phase, which are collected by Mountain Plains Evaluation.

Early Intervention, Intensive Outpatient Treatment, Outpatient Services

**Area Served:**

State of South Dakota

**Eligibility:**

Residents of the Institution

**Fees:**

No fees

**Services:**

Initial Screenings, Intensive Outpatient Chemical Dependency Treatment, Co-occurring Treatment, Continuing Recovery Class, Twelve Step Meetings, Meth Treatment, Native American specific treatment, Referral, and Parole Coordination Services

**Description:**

The Correctional Substance Abuse Program staff located at the South Dakota State Penitentiary provides the following services to the inmates housed in that facility:

- All adult male inmates who enter the South Dakota Department of Corrections system through the Jameson Intake Unit are screened to determine a need for chemical dependency services.
- Intensive Outpatient Treatment either consists of 15 hours of services per week for a period of 6 weeks or 17.5 hours of services per week for a period of 4 weeks. Inmates are provided with chemical dependency education, group therapy, and individual counseling.
- Co-occurring Treatment consists of 10 hours of service per week for a period of 10 weeks, focusing on individuals who have co-occurring issues to deal with (ex. Chemical Dependency and Mental Health). Inmates are provided with chemical dependency education, mental health education, group therapy, and individual counseling.
- Methamphetamine Treatment consists of 12.5 hours of service per week for a period of 7 weeks, focusing on individuals diagnosed with Methamphetamine dependence. Inmates are provided with chemical dependency education, group therapy and individual counseling.
- Native American Specific Treatment consists of 15 hours of service per week for a period of 6 weeks, focusing on the Red Road to Wellbriety. Inmates are provided with chemical dependency education, group therapy, individual counseling and participate in Talking Circles.
- A one hour weekly Continuing Recovery Class is available on an on-going basis for inmates who have completed treatment and wish to further develop and enhance their recovery strategies to avoid future relapse.
- Alcoholics and Narcotics Anonymous meetings are available 1 evening per week.

Those needing continued service subsequent to leaving the facility are referred to appropriate services in their home community. The parole coordinator provides oversight as well as coordination of services delivered to parolees. Located at the South Dakota State Penitentiary this position works directly with DOC institutional staff, parole services administration, parole officers, and community providers to ensure that all parolees are provided with appropriate and timely links to services post release.

**Fees:**

Depends on credit hours completed

**Services:**

The Alcohol and Drug Studies Program (ADS) at the University of South Dakota (USD), School of Health Sciences is designed to positively impact one of the nation's major health issues, alcohol and other drugs. This is done by providing academic preparation to the undergraduate student in all aspects of the alcohol and other drug prevention and treatment continuum. Specific goals of the ADS Department are:

- To provide academic preparation to enter the alcohol and drug prevention and treatment profession in rural and urban areas by fulfilling the requirements for a Bachelor of Science degree.
- To teach undergraduate college courses that addresses all aspects of alcohol and drug treatment and prevention by providing students with theoretical knowledge regarding the nature, etiology, prevention, and treatment of alcohol and drug issues.
- To assist ADS majors in developing critical thinking skills by engaging students in cycles of thought and action based on theoretical, ethical and professional knowledge with evaluative feedback regarding practiced application of knowledge.
- To help students majoring in other disciplines recognize and understand the difficulties associated with contemporary alcohol and drug issues and how these difficulties can be treated and prevented.

**Degree Program:**

**Major:** A program of 128 semester hours, which includes 45 semester hours of courses in Alcohol & Drug, leading to the Bachelor of Science degree with a major in Alcohol and Drug Studies. Can be completed on campus or online.

**Minor:** A program of 18 semester hours of courses in Alcohol and Drug Studies leading to a minor in Alcohol and Drug Studies. The ADS curriculum has been approved for SD State Alcohol/Drug Treatment and Prevention Certification.

**On-Line Certificate:** All of the Alcohol/Drug specific courses required for South Dakota State Alcohol/Drug Certification can be attained online.

**ADS Graduate Courses:** ADS has 15 credit hours of graduate courses specific to addiction studies. These courses have been approved for South Dakota State Alcohol/Drug Treatment and Prevention Certification and are online.

**Accreditation 3/31:**

Day Treatment, Early Intervention, Intensive Outpatient Treatment, Level III.1 Clinically Managed  
Low Intensity Residential Treatment, Level III.7 Medically Monitored Intensive Inpatient  
Treatment for Adolescents and Adult Pregnant/Parenting Females, Outpatient Services, Prevention

**Area Served:**

Open

**Eligibility:**

Adolescent services are geared towards youth ages 12-18, pregnant and parenting females of all ages, and adults.

**Fees:**

Funds may be available to provide the above services at no cost to those individuals/families who meet income eligibility guidelines. Additional payment sources include Medicaid/Title 19, private insurance, referring agencies (i.e., social services, corrections) and self pay.

**Description:**

Prevention programs, assessments, individual, group and family counseling, adolescent and adult intensive outpatient treatment, residential treatment, partial-hospitalization day treatment, transitional care and aftercare counseling, family program.

Volunteers of America, Dakotas is a non-profit, spiritually based organization that reaches out to empower people of all ages to become healthier, self sufficient, productive members of their communities.

**Support Services and Counseling:** Provides assessments, individual, group and family counseling, aftercare counseling and prevention and education programs.

**Adolescent Intensive Outpatient Treatment:** Provides six weeks of intensive outpatient treatment services to adolescents and their families. Groups meet 3 days a week, 3 hours per day.

**Adult Intensive Outpatient Treatment:** Provides six weeks of intensive outpatient treatment services to adults and their families. Groups meet 3 evenings per week, 3 hours per evening.

**Aftercare:** Ongoing continuum of care services are offered for those that have completed treatment programs. Groups meet 4 days a week for a recommended six month period of time.

**Residential/Inpatient Treatment:** Provides up to 45 days of residential treatment services to adolescents. Additional stay beyond 45 days is possible if clinically warranted. Services include individual, group and family counseling; psychiatric and psychological services, nursing care, family program, school program, and 24 hour staff coverage. Native Hope is a cultural component of the program designed specifically for Native American youth using traditional Native American culture during their treatment and recovery. Adolescents will have an opportunity to participate in cultural activities that work hand in hand with the Twelve Steps. Some of the activities include: visits from elders, sweat lodge, arts and crafts, meditation, guest speakers and talking circle.

**Transitional Care:** Provides up to 90 days of transitional care services to adolescents who have completed residential treatment but need continued structure and care. Services include individual, group and family counseling; psychiatric and psychological services; nursing care, family program, school program and 24 hour staff coverage.

**Outpatient Treatment and Transitional Care (“SLIP-SLOT”):** Provides up to 45 days of both outpatient treatment and transitional care to adolescents who do not need residential treatment, but require a structured living environment while participating in outpatient treatment. This service is also available to adolescents who have completed residential treatment but are experiencing difficulties in maintaining ongoing sobriety. Services include individual, group and family counseling, psychiatric and psychological services, nursing care, family program, school program and 24 hour staff coverage.

**Partial Hospitalization/Day Treatment:** For adolescents age 12-18. The program is 30 days in length and includes a residential component. Adolescents will participate in 15 hours of programming per week. Services include individual, group and family counseling, psychiatric and psychological services, nursing care, family program, school program and 24 hour staff coverage.

**The New Start Program for Adolescents** is a 24 hour clinically managed low intensity residential treatment program for pregnant and parenting adolescents referred by the Department of Corrections and Social Services, Human Services, Court Services or the private sector. Comprehensive services provided include prenatal, postpartum, and well baby care, child care and parenting services, basic life skills education, educational and employment services, chemical dependency services, mental health counseling and case management. These services allow

participants to gain the skills and resources necessary to live a healthy, drug free life and to develop positive parenting practices for themselves and their child(ren).

The New Start program for women is a 24 hour residential treatment program that offers both medically monitored intensive inpatient chemical dependency treatment and clinically managed low intensity treatment to chemically dependent pregnant and parenting women. Comprehensive services provided include prenatal, postpartum, and well baby care, child care and parenting services, independent living skills training, educational services, employability skills training, chemical dependency treatment, mental health counseling and case management. Law Enforcement, Social Services, Human Services, Tribal Entities and the private sector such as physicians, attorneys and others can refer women to this program.

PRIme- Prevention Research Institute Risk Reduction Program: Provides 8 hours of prevention to individuals under 21 years of age in relation to alcohol/drug use.

IPP (Intensive Prevention Program): Provides 24 hours of prevention education to individuals under 21 years of age in relation to alcohol and drug use/abuse. Groups are held twice per week, 2 hours per group for 6 weeks.

**Accreditation 1/31:**

Early Intervention, Outpatient Services, Prevention

**Area Served:**

Rapid City and surrounding communities

**Eligibility:**

Counseling available to all youth and families; referrals accepted

**Fees:**

Sliding fee scale

**Services:**

Drug and alcohol evaluations; individual, group and family outpatient services, aftercare

**Description:**

Counseling and support services for youth and families. Individual, group, and family counseling; crisis intervention; parent education; aftercare; community liaison and referral.

Youth and Family Services Counseling provides crisis intervention for young people and families; counseling for alcohol and drug problems, child abuse and neglect, sexual abuse, family and individual dysfunctions; referral and aftercare; parent education classes; teen pregnancy prevention; networking with community agencies and schools; curriculum development and training.

The YFS Outpatient Program requires a minimum of 20 hours of direct contact depending on the extent of client's problems. This program is long term, lasting 10 weeks. The primary method of treatment is through group format, although portions of the program are conducted individually and with the client's family. If work or other restraints does not allow for the group meetings,

arrangements can be made for individual sessions. This program is conducted by staff both Certified Chemical Dependency Counselors and Licensed Professional Counselors.

Family Counseling is a part of the YFS program. All clients are tasked with having their spouse or significant other attend one or more sessions. These sessions are conducted in individual format and are private and confidential. They address support for the client as well as for the family member. These sessions can also be used to aide the family in adjusting to the client's sobriety and understanding the phases of recovery. An Aftercare Program is also available. This program is conducted either individually or in groups. Program length varies depending on needs of individuals. Aftercare provides counseling related to continued abstinence from alcohol/drug use and includes topics such as relapse identification and prevention, healthy communication, support systems, rational thinking, stress management and health relationships.

Assessments are conducted using standard ASAM guidelines. The assessments are conducted in individual sessions. The cost of the Assessment is a standard \$60 fee for all clients who meet the financial eligibility. Otherwise the standard fee is \$234.00.

Set fees

**Description:**

Support service, counseling, chemical education, and outpatient treatment.

These following services are to be provided to the clients that are placed in the Academy:

- Each client will be assessed by a certified addiction counselor to determine the level of care/treatment required to addressing the client's problem.
- The counseling and support services provide assessment, diagnosis, treatment planning, treatment and continuing care within individual and group settings. Addiction counseling is available to all clients at Springfield Academy as needed.
- For those students who meet DSM IV diagnostic criteria for Severe Abuse or Dependency, the Academy provides an Intensive Outpatient Treatment Program Level II.1. This group is facilitated by a state Certified Chemical Dependency Counselor. This includes at least 60 hours of treatment in approximately a six-week time period.
- Also a Level I Outpatient Treatment, continuing care service is provided to clients who have met the ASAM criteria for this level of care. This service provides one hour a week for six weeks of group and/or individual counseling.
- An occasional off-campus AA meeting is attended by clients that show appropriate behavior to be taken off campus.

- Youth Services International Springfield Academy provides complete addiction educational and awareness programs with in-depth treatment components.
